Professional Summary

Web developer with over **two years** of professional experience overtime and **five years** of being in the web development space spanning years at the university and now being a computer science graduate. Over the years, I have picked up a lot of experience teaching web development and working with startups building end user applications in collaborative development environments.

Skills

Languages: JavaScript, TypeScript

Frameworks and Libraries: Next.js, React.js, Shadcn, Tailwind CSS, SASS

Backend as a service usage: Firebase, Firestore, NextAuth, Clerk Authentication

Experiences

1. Frontend Developer: SIPPY (**Remote**) - June 2024 - Till Date

- Work in a **collaborative development environment** with other developers on both the website and the dashboard
- In charge of **weekly merges and PR reviews** across both the website and dashboard with little **under a year of being at the company**

2. Web Tutor (New Horizons- **Official ICT trainers for country's mandatory post university scheme**) - April 2024 - March 2025 (In intervals of three months)

- Responsible for tutoring students on web development

3. Frontend Developer: Dreamplanet (**Remote**)

- Worked alone on the admin section of things
- Required to build the CRUD dashboard integrating with the backend

4. Frontend Developer: Passpro (**Remote**)

- Responsible for building their **website and admin** dashboard
- Collaborated with a backend developer for integration

5. Frontend Developer: Oyannow Logistics, Benin-City, Edo-State September 2022 - February 2023
 - Developed responsive front-end interfaces using React.js.
 - Integrated api to projects and gained experience in providing different levels of access in projects.
 - Worked closely with the backend team to ensure proper functionality implementation.
6. Web Development Intern: Edo Innovation Hub, Benin-City, Edo-State January 2022 - July 2022
 - Gained experience in teaching web development to freshers.
 - Assisted in the development and maintenance of web applications using JavaScript and React.js.

Projects with Key Technologies and Features

1. Sippy website - <https://www.sippy.life/>
 - Built on Nextjs
 - Modern UI
 - Worked with an existing code base
 - **Built collaboratively with three developers**
 - CRUD functionalities
 - Paystack Integration
2. Passpro Africa - <https://passpro.africa/>
 - Nextjs
 - Event Ticketing platform
 - Built solely
3. Sippy Dashboard - Confidential as its a dashboard
 - Nextjs
 - Built collaboratively
 - CRUD functionalities
4. Dreamplanet Dashboard - Confidential as its a dashboard
 - Nextjs
 - Built solely
 - CRUD functionalities
5. Passpro Dashboard - Confidential as its a dashboard
 - Nextjs
 - Built solely
 - Complex ticketing logic to handle all conditions for tickets
 - CRUD functionalities

Formal Education

Bachelor of Science in Computer Science: University of Benin, Benin-City, Edo State, Nigeria.

2nd Class Upper graduate, Graduated: December 2023

Certifications (Acquired while being a **highest level scholarship student** at the **Nuyew Tech Academy, UK, Wales**)

- Pearson IT Specialist HTML5 Application Development
- Pearson IT Specialist HTML and CSS
- Pearson IT Specialist JavaScript
- Pearson IT Specialist Python Professional Work
